- **Investment period:** Continuous
- **Value of the investment basket unit:** A value is calculated for the investment basket unit on each banking day.
- **Annual management fee of the investment basket:** 1.5%

### Investment strategy

The investment basket invests its assets in equities and equity-linked securities worldwide. The investment basket may use fixed income investments only for the management of cash assets.

The investment basket has a benchmark index to which the return on the investment basket is compared. The benchmark index is a combination of the following indices: STOXX Europe 600 (55%) and STOXX America 600 (45%). The objective of the investment basket is to outperform the benchmark index in the long run.

The benchmark index can be outperformed by investing in selected companies based on a quality and sustainability analysis. The proportion of equity-linked securities in the investment basket of the total value of the investment basket may vary between 75% and 125%.

### Targeted investors

The investment basket suits investors who wish to invest selectively in the global equity markets, seek better returns than those for fixed income investments and accept the risk typically associated with equity investments. The recommended investment period is at least 5 years.

### Calculation of the investment basket's value

The value of the investment basket is calculated on each banking day at the current market values of the investment objects it contains. The value of the investment basket is available on Mandatum Life's website.

The value of redemptions made from the investment basket will be determined per order in accordance with the market situation at the time of redemption.

## Risk profile of the investment basket

The investment basket is exposed to the equity markets' return risk and capital risk as well as foreign exchange risk. Return and capital risk mean that investors may lose the capital that they have invested as well as the returns in part or in full.

The value of the investment basket is calculated regularly at the current market values of the investment objects it contains. Changes in the equity, foreign exchange and interest rate markets are reflected in the value of the basket, which can vary substantially in the short term. The investment basket is not covered by the Investors' Compensation Fund or the Deposit Guarantee Fund.

## Investment basket's fees and expenses

The annual management fee of the investment basket is 1.5%. The investment basket's management fee and possible other expenses associated with investments, including safe custody expenses, subscription and redemption fees, trading costs and any taxes and other public charges will be charged from the value of the investment basket when the value of the unit is calculated; they will not be charged separately.

## Risks and observations related to unit-linked insurance policies

This brochure does not provide exhaustive information on the Mandatum Life Future Quality Equity investment basket or the associated terms and conditions. Prospective policyholders must carefully familiarise themselves with the investment basket's rules, the insurance policy's and investment basket's terms and conditions, price lists, product information and brochures before purchasing or changing an insurance policy or selecting or changing investments.

In case of a conflict between this brochure and the rules of the investment basket, the rules of the investment basket shall take precedence.

The performance of unit-linked insurance policies is dependent on the performance of the investments (such as investment baskets) selected by the policyholder. The value of the investments may rise or fall, and the policyholder bears the risk of losing, either in full or in part, the value of the investment object appended to an investment insurance policy or capital redemption contract.

Policyholders should note that the past performance of investments is no guarantee of future returns. Investors may lose the assets they have invested in the investment basket in part or in full. The information and calculations concerning the returns, expenses and fees for investment objects do not take into account the expenses for the insur-

ance policy.

Policyholders independently decide on the selection of investment objects in accordance with their own investment objectives, and bear the risk of a decrease or loss in the value of the insurance savings. Neither Mandatum Life Insurance Company Limited nor its agents are liable for the performance of the investments.

Information on investments and related matters is supplied for information purposes only and cannot be construed as a recommendation to subscribe for, hold or exchange certain investments, or to carry out any other actions affecting the performance of the insurance.
