- **Investment period:** Continuous
- **Value of the investment basket unit:** A value is calculated for the investment basket unit on each banking day
- **Annual management fee for the investment basket:** 1.20%

### Investment strategy

The Mandatum Life Pension+ investment basket is a combination strategy whose long-term objective is to exceed the fixed income investment return, with a lower risk level than what the equity markets hold.

The investment goal is achieved and the investment risks are managed through proactive portfolio management between different investment objects by investing in equities, alternative investments and fixed income investments.

In a normal situation, 50% of the investment basket's assets are invested in alternative investments, 40% in equity investments and 10% in fixed income investments.

The share of alternative investments can vary from 0 to 100%, equity-linked investments from 0 to 100%, and fixed income investments from 0 to 40%.

### Targeted investors

The investment basket suits investors who are saving for their retirement, seek a higher return than that of fixed income investments and accept the risk of losing capital and returns. The recommended investment period is at least 10 years.

### Calculation of the investment basket's value

The investment basket's value is calculated on each banking day at the current market values of the investment objects it contains. The value of the investment basket is available on Mandatum Life's website.

The value of redemptions made from the investment basket will be determined per order in accordance with the market situation at the time of redemption.

### Risk profile of the investment basket

The investment basket has a high return risk and capital risk. Return

and capital risk mean that investors may lose the capital that they have invested as well as the returns in part or in full.

The value of the investment basket is calculated regularly at the current market values of the investment objects it contains. Changes in the equity, foreign exchange and fixed income markets are reflected in the value of the basket, which can vary substantially in the short term. The investment basket is not covered by the Investors' Compensation Fund or the Deposit Guarantee Fund.

### Investment basket's fees and expenses

The annual management fee for the investment basket is 1.20%. The investment basket's management fee and possible other expenses associated with investments, including investment object management fees, safe custody expenses, subscription and redemption fees, trading costs and any taxes and other public charges will be charged from the value of the investment basket when the value of

the unit is calculated; they will not be charged separately.

## **Risks and observations related to unit-linked insurance**

This brochure does not provide exhaustive information on the Mandatum Life Pension+ investment basket or the associated terms and conditions.

Prospective policyholders must carefully familiarise themselves with the investment basket's rules, the terms and conditions of the insurance and the investment basket, price lists, product information and brochures before purchasing or changing the insurance contract or selecting or changing investments.

If this brochure and the rules of the investment basket conflict, the rules of the investment basket shall take precedence.

The performance of unit-linked insurance policies is dependent on the performance of the investments (such as investment baskets) selected by the policyholder. The value of the investments may rise or fall, and the policyholder bears the risk of losing, either in full or in part, the value of the investment object appended to an investment insurance or capital redemption contract.

The past performance of investment objects is not indicative of their future performance. Investors

may lose the assets they have invested in the investment basket in part or in full. The information and calculations concerning the returns, expenses and fees for investment objects do not take into account the expenses for the insurance contract.

Policyholders independently decide on the selection of investment objects in accordance with their own investment objectives, and bear the risk of a depreciation or loss in the value of the insurance savings. Neither Mandatum Life nor its agents are liable for the performance of the investments.

Information on investments and related matters is supplied for information purposes only, and cannot be construed as a recommendation to subscribe for, hold or exchange certain investments, or to carry out any other actions affecting the performance of the insurance.

The investment basket is an investment object owned by Mandatum Life that may be linked to unit-linked insurance or a capital redemption contract. The insurance policy or capital redemption contract is granted by and the investment basket is offered by
